

Godolphin Health Private Fees (Updated January 2026)

The following list is not exhaustive and any service not included in the General Medical Services contract may attract a fee.

Our ability to complete the form and offer the service is at the discretion of the partners.

Our priority will always lie with completing NHS work.

We will aim to complete private work within 4 weeks of payment. If your request is more urgent we may be able to accommodate this and a surcharge of £45 will be applicable.

All fees need to be paid up front before we can complete the work.
